Mr. Lee R. Brown  
Vice President  
Magnesium Corporation of America  
238 North 2200 West  
Salt Lake City, Utah 84116

Dear Mr. Brown:

Re: Board Hearing Results, Request for Board Concurrence, Amount and Form of Replacement Reclamation Surety, Rowley Processing Plant, M/045/008, Tooele County, Utah

On June 28, 1990, the Division requested the Board of Oil, Gas and Mining's concurrence for the amount and form of Replacement Surety for Magnesium Corporation of America's (Magcorp) Rowley Processing Plant & Oolitic Sands mining project. The Board granted a conditional approval to become effective upon final resolution of the following concerns:

1. The Board expressed a concern with page 7, of the reclamation contract, FORM MR-RC. This page has the operator's notarized signature. Portions are not completed properly and must be revised accordingly. Please refer to the attached revised version for the pertinent changes which must be corrected and renotarized.
2. The Board has asked that the Division's latest revised (May 30, 1990) Reclamation Contract, FORM MR-RC, be completed by Magcorp and submitted to replace the original form currently on file. I have attached a copy of the original form for your reference in filling out the latest version.

Once these two issues have been resolved, the Division will obtain the Board's signature and then send its final approval of the permit transfer and replacement reclamation surety for the Rowley project.
